

Survey Monitoring Report

South Bengal

2022

under the Green India Mission Scheme

**Directorate of Forests
Government of West Bengal
Monitoring (South) Division
Monitoring Circle**

Foreword

Monitoring is an essential tool to ascertain the relative success of any plantation since every plantation is a long term investment in financial and environmental terms. Forest directorate has its own monitoring wing equipped and trained for the purpose, which records information on survival, height etc. Generally a sampling intensity varies from 7.5% to 5% is adopted for the purpose.

The plantation created under the scheme of Green India Mission during the year 2022-23 spread over 1611.2 ha.(1st year monitoring) in A-Type scheme (599 ha.), B-Type scheme (1007.7 ha.), C-Type scheme (2 ha.) and Rural Road/Canal scheme (2.5 ha.). Plantations were raised in different forest Divisions of South West Bengal. Over all, plantations have shown higher level of success with a weighted survival percentage of 78%.

I congratulate the participating Divisions led by the respective Chief Conservator Forests and Divisional Forest Officers for raising truly good plantations. I extend my sincere appreciation to the Monitoring team led by the Divisional Forest Officer, Monitoring (South) Division who had painstakingly undertaken exercise against all odds with active encouragement from his senior officers from this wing.

Every Monitoring activity gives certain level of experience and ideas which would help us improvise the process further.

Principal Chief Conservator of Forests,
Research, Monitoring and Development, WB

Preface

Monitoring of plantations created by the forest Divisions is a needful mechanism to assess the quality of plantations. Forests Directorate has its own Monitoring Wing equipped and trained for the purpose, which records information on survival, height etc. Generally a sampling intensity varies from 7.5% to 5% is adopted for the purpose.

The plantation created under Green India Mission scheme during the year 2022-23 spread over 1611.2 ha. (1st Year monitoring) in A- Type scheme (599 ha.), - Type scheme (1007.7 ha.), C- Type scheme (2 ha.), and Rural Road/Canal scheme (2.5 a.). Plantations were raised in different forest Divisions of South West Bengal. Over all, plantations have shown higher level of success with a weighted survival percentage of 78%.

I am grateful to The Principal Chief Conservator of Forests, Research, Monitoring & Development, West Bengal, The Addl. Principal Chief Conservator of Forests, Research & Monitoring, West Bengal , and The Chief Conservator of Forests, Monitoring & Evaluation, West Bengal for their kind co – operation to complete the Monitoring.

I appreciate the effort of Monitoring team led by The Divisional Forest Officer, Monitoring (South) Division who could complete the huge field work timely inspite of new financial operating guidelines of the government and bringing out this report in time.

I extend my personal gratitude to all my colleague for their advice and co - operation.

Conservator of Forests
Monitoring Circle, West Bengal.

Acknowledgement

The major function of Divisional Forest Officer and his team is to perform the following works with regards to the publication of this report-

1. Collection of preliminary data on plantation viz. location, scheme etc. of from Divisional Forest Officer of different division of South Bengal.
2. Verify the data in field by collecting Regeneration Map and FORM-1.
3. Conduct monitoring in the field through Range Officer & staff.
4. Compilation of the data after field work.
5. Sending the compiled data to the concerned DFOs to get their comment and also for if there is any correction.
6. Preparation of the draft report and submit the same to the Conservator of Forests, Monitoring Circle, West Bengal.
7. After inclusion the corrections and suggestions of the Conservator of Forests, Monitoring Circle, West Bengal.
8. Finally publish the report.

In the above process I sincerely acknowledge the suggestion and guidance of Principal Chief Conservator of Forests, Research, Monitoring and Development, West Bengal and Addl. Principal Chief Conservator of Forests, Research & Monitoring, West Bengal.

I acknowledge the suggestion and continuous guidance of Chief Conservator of Forests, Monitoring and Evaluation, West Bengal and Conservator of Forests, Monitoring Circle, West Bengal.

I acknowledge the help and cooperation of Chief Conservator of Forests- Central Circle, Western Circle, South East Circle, South West Circle, Field Director- Sundarban Tiger Reserve, Conservator of Forests- Parks & Gardens Circle and Joint Director- Sundarban Biosphere Reserve.

I am also thankful to the DFOs and their team at South Bengal.

I am also very thankful to the Asstt. Divisional Forest Officer, Monitoring (South) Division for his very sincere effort and helping me in field work and in compilation of the report.

I am thankful to all the Range Officers and their staff who sincerely completed the field work within time frame in spite of several hindrances.

My special thanks goes to Data Entry Operator & other staff of Monitoring (South) Division for designing, typing and continues work for publication of a smooth monitoring report and bearing me for carrying my order even in odd time.

Divisional Forest Officer,
Monitoring (South) Division

Draft Report on Plantation raised under Green India Mission
Monitoring done during the year 2022-23

Total 1611.2ha. of plantation monitored during the F.Y. 2022-23 is raised under Green India Mission scheme at South Bengal. The detail of plantation area division wise is given below-

Circle/Division	Area	WSP	WPS	Avg. Ht.
Central	568.5	94	74	99
BNK (N)	92	96	83	103
BNK (S)	117	94	80	114
PNCT	359.5	94	70	92
South-East	93.5	98	87	101
BDN	52.5	99	88	105
BIR	41	98	85	94
South-West	494.2	78	55	87
KNG (N)	160	66	44	89
KNG (S)	41.7	85	64	88
Purulia	292.5	84	59	86
Western	455	54	44	75
KGP	325	39	32	62
RPN	130	91	73	98
Grand Total	1611.2	78	60	91

Methodology-

- ❖ Copies of regeneration maps along with plantation journals are collected from the respective Divisions.
- ❖ Location, area, spacing, planting scheme etc. are also recorded as check list.
- ❖ A grid line as per scale is laid over the map with quadrates of 50m x 50m & each grid is serially numbered.
- ❖ Numbers of Sample plots (grids) are chosen randomly using the statistical random number table.
- ❖ The selected sample plots are identified in the field.
- ❖ Boundary corners are clearly marked with raised earthen mound topped with painted peg and geo-location is recorded.
- ❖ The area of plantation is checked in the field by traversing with GPS.
- ❖ At the time of Survey & Monitoring, the staff of respective Range remains present & put their initials on the data sheets as the sign of authentication.

Overall Weighted Survival Percentage & Weighted Performance Score-

Area (Ha.)	WPS	Grade	WSP	Category
1611.2	60	Good	78	B
