ANALYSIS OF THE ESTIMATES

1. Two model estimates are included here. One for barbed Wire fencing and another for Chain Link Fencing. The Estimates are based on current PWD Schedule of Rates. The estimates are inclusive of GST, labour Cess and Contingency as applicable. The intending bidders are required to quote their rate based on estimated cost only. GST and Labour Cess will be applicable based on the accepted offered Rate quoted by successful bidder. All taxes and statutory deductions in vogue shall be made from the bills. The specifications of the materials must be as per current PWD Schedule of rates. The Successful shall have no claim over contingency. It shall be the discretionary power of the undersigned to utilize contingency as per the requirement. Generally it is utilized to pay the advertisement bill etc.
2. No change in plan is allowed on behalf of the successful contractors. However, it shall be discretionary power of the undersigned to modify the plan and estimate to the tune of 15% of the original cost without any additional remuneration to the successful bidder.
3. The estimate is indicative in nature. Thus, it might be so that some of the items mentioned in the estimates do not require to be implemented in the field and some of the items need to be implemented more than once, repeated or enhanced as per field requirements. Thus the Intending bidders need to quote rate accordingly and will have to follow the instructions of Forest Officials only.
4. The BOQ for each cluster will be for the total amount for each cluster. Before quoting the rate/s the intending bidders shall have to consider both abstract and detail estimates to be provided along with this NIT. The rate quoted below shall be calibrated item wise in case of necessity. Thus it specifies and justifies the criteria mentioned in the clause 2 above.
