Head Purulia DMU**

29.06.24 The target of raising plantation under WBFBCCR in Puzulia DMU, is to the tune of 100 Ha and there is provision for raising further RET species for planting under Species Conservation Programme. During 2025, 2026 and 2027 Creation of 100 Ha plantation with ample miscellaneous species (at least 50 in number) with about 0.5 and half year seedlings raised is 750 CC and 1000 CC hycopots.

Visited Balarampur Nursery on 28.06.24 and found that they have made little progress in terms of raising seedlings for WBFBCCR as per prescription. Visited Thalda Nursery on 29.06.24 and found that ample expertise for raising nursery seedlings exists here. So the nursery for WBFBCCR plantations may be raised at Thalda Central Nursery instead of Balarampur Central Nursery in Puzulia DMU

29.06.24
